

## **Organic fertilizer derived from Organic manicure:**

Product is suitable for well-balanced agricultural practices and contains high concentration of humus. The product stimulates a good root formation, improves the soil structure and increases the biodiversity in the soil.

## **Agronomic values:**

630 kg of organic matter per tonne.

Phosphorus and Potash is 80% assimilable.

Mineralization of Nitrogen is within 60 days after application.

## **Composition:**

Dry matter	85%
Density (kg/m3	0,7%
Total Nitrogen (N) including 2,5% Organic Nitrogen	3,04%
Phosphor pentoxide (P2O5)	3,8%
Potash Oxide (K2O)	4,1%
Magnesium Oxide (MgO)	0,9%
Calcium Oxide (CaO)	3,6%
C/N	>10

## **Important:**

- \* Hygienized organic fertilizer according to CE standard 1069/2009.
- \* Truck weight between 29 and 34 tons.
- \* Appearance pelletized Ø 5mm. and length +/- 1,2 cm.
- \* The weighing slip is authoritative: see CMR transport.
- \* Can be applied with a conventional fertilizer drill or traditional distributor.
- \* Comply with the departmental regulations for spreading organic fertilizers.
- \* The value is indicated in g/kg. May vary by up to 10%, depending on production.
- \* Application rate 1-3 ton per hectare on all crops.
- \* Store the product in a dry place preferable on a paved surface and avoid direct sunlight.
