

BIOCOMPIG BV

Supplier of pelletized organic fertilizer

WinLiq 3-0-6

This product is a liquid organic fertilizer composed of 100% natural ingredients that can increase plant yield and improve the quality of vegetables, fruits, and flowers. It not only contains essential plant nutrients but also high levels of humic substances, especially fulvic acids, and trace elements. It is a well-balanced product that stimulates good root formation, improves soil structure, and increases biodiversity in the soil.
