

# BIOCOMPIG BV

Supplier of pelletized organic fertilizer

## WINLIQ BIO 4-2-8

WinliQ 4-2-8 is an organic, mineral liquid fertilizer formulated with ingredients. It helps increase plant yields and improves flower quality. Due to its nature, it has a rapid effect on the soil. It has a high potassium content, which is very beneficial for flowering and fruiting. This fertilizer is also a good choice when the crop generally has a high potassium requirement or when there is a potassium deficiency. The product is made entirely from plant materials and certified for use in organic agriculture and horticulture. Some of the ingredients are derived from agricultural waste. Due to its natural origin, the nutrient content may vary.

### Agronomic values:

#### Composition of fresh product (w/w):

|                                                     |      |                 | mg/kg       |
|-----------------------------------------------------|------|-----------------|-------------|
| Dry matter                                          | 50%  | Desity          | 1,180-1,220 |
| Organic matter                                      | 25%  | pH              | 5-6         |
| Total Nitrogen (N)                                  | 3,8% | Iron (Fe)       | 60          |
| Organic Nitrogen (N-org.)                           | 3,6% | Maganese (Mn)   | 20          |
| Ammoniacal Nitrogen (N-NH <sub>4</sub> )            | 0,1% | Boron (B)       | 14          |
| Phosphor pentoxide (P <sub>2</sub> O <sub>5</sub> ) | 1,6% | Zinc (Zn)       | 55          |
| Potash Oxide (K <sub>2</sub> O)                     | 7,3% | Copper (Cu)     | 5           |
| Magnesium Oxide (MgO)                               | 0,5% | Molybdenum (Mo) | 1,5         |
| Calcuim Oxide (CaO)                                 | 0,2% |                 |             |
| Sulphur trioxide (SO <sub>3</sub> )                 | 1,8% |                 |             |
| Fulvic acids                                        | >25% |                 |             |

### Application:

#### Irrigation

|                 |        |               |
|-----------------|--------|---------------|
| Arable crops    | 25-50  | liter/ha/week |
| Vegetable crops | 25-100 | liter/ha/week |
| Tree nursery    | 10-50  | liter/ha/week |
| Fruit growing   | 25-100 | liter/ha/week |
| Horticulture    | 25-100 | liter/ha/week |

#### Foliar spray

|      |                  |
|------|------------------|
| 10   | liter/ha/2 weeks |
| 10   | liter/ha/week    |
| 5-10 | liter/ha/2 weeks |
| 3-5  | liter/ha/week    |
| 10   | liter/ha/week    |

*\*for foliar application we recommend to do test before using on a large scale*

### Important:

- ✓ Hygienized organic fertilizer according to EU-standard 2018/848 en 1165/2021.
- ✓ Delivery in 1000 liter IBC container.
- ✓ The weighing slip is authoritative: see CMR transport.
- ✓ Comply with the departmental regulations for spreading organic fertilizers.
